

Words 4 U Lyrics

There you are
Moving as smooth as I thought
You look better than the pictures
Caught me like never before
Let me come closer

You're calling, out calling, out calling out
For my heart
No need to stick it out, stick it out, stick it out, stick it out
Already fallen for you
You're calling out, calling out, calling out
For my heart
No need to stick it out, stick it out, stick it out, stick it out
Uh uh uh uh uh uh uh uh

I know you got me cause I
I know you make me feel like
I got it all in my mind
But I can't find words for you
I know you got me cause I
I know you make me feel like
I got it all in my mind
I wanna lose myself with you

There we are
My body follows you but
My mind's already gone
I stumble into the dark
Pull me wherever you want
Oh, I'm free falling now

You're calling, out calling, out calling out
For my heart
No need to stick it out, stick it out, stick it out, stick it out
Already fallen for you
You're calling out, calling out, calling out
For my heart
No need to stick it out, stick it out, stick it out, stick it out
Uh uh uh uh uh uh uh uh

I know you got me cause I
I know you make me feel like
I got it all in my mind
But I can't find words for you
I know you got me cause I
I know you make me feel like
I got it all in my mind

I wanna lose myself with you

I fall for you
I fall for you
I love what you do
[2x]

Oh girl, you conquered my mind
I got shackled by your eyes
An attraction I can't fight
Yeah, you fool me just right
(Okay)

I know you got me cause I
I know you make me feel like
I got it all in my mind
But I can't find words for you
I know you got me cause I
I know you make me feel like
I got it all in my mind
I wanna lose myself with you

I fall for you
I fall for you
I love what you do
[3x]
